

## RIDO Driver Health, Safety and Hours Standards

1. Maximum Driving Hours and Rest Breaks: Maximum continuous driving duration is 4.5 hours, followed by mandatory minimum 45-minute rest break. Maximum total daily driving limit is 8.0 hours within a 24-hour cycle. When driver reaches 7.0 hours, system issues warning alert and restricts subsequent dispatches.
2. Speed Governance: Fleet speed is electronically governed to 80 km/h on expressways, 50 km/h on state highways, and 40 km/h in city boundaries. Telematics alerts trigger on speeds > 85 km/h or harsh braking > 0.4g.
3. Adverse Weather and Low Visibility SOP: During heavy fog visibility < 50 meters, hazard lights must be activated, speed reduced to max 30 km/h, and following distance increased to 50 meters. If visibility drops below 20 meters, drivers are mandated to park at nearest toll plaza or petrol station.
